

**argenx has a committed field team designed to provide comprehensive support for healthcare providers and their offices to facilitate patient access to argenx products.**

Our dedicated and experienced team of Field Reimbursement Managers (FRMs) can provide education and support access & reimbursement for argenx products within your region.

## Access and Reimbursement Education

**FRMs can provide general access & reimbursement education to healthcare providers (HCPs) and offices, including:**

- Benefits investigation, prior authorization (PA), and appeals processes
- Billing, coding, and claims submission processes
- Reimbursement and cost considerations
- Product acquisition
- Site-of-care requirements

## Case-Specific Support\*

**FRMs can provide case-specific support to assist getting patients on treatment, including:**

- Review payer-specific policy information, PA criteria, step-edit requirements, and required documentation for claims submission
- Provide resources and sample forms/letters to assist with PA or appeal submissions
- Assist in addressing billing & coding, reimbursement, or other access barriers
- Identify and coordinate site-of-care options based on patient's insurance coverage

## Patient Support

**FRMs can provide coordination and education through a suite of patient support services available via My VYVGART Path, including:**

- Assist with enrolling your patients with My VYVGART Path
- Provide information on financial assistance programs, including co-pay assistance programs
- Help you access additional patient support resources

*We look forward to supporting your office!*
