Injection for Intravenous Use
400 mg/20 mL vial

Personalized support throughout the VYVGART Hytrulo or VYVGART treatment journey

My VYVGART Path is a Patient Support Program that provides one-on-one support from a Nurse Case Manager and access to a world of resources to help your patients feel supported and prepared for what's next.

The committed team at My VYVGART Path offers:

- ➔ **Patient-specific benefit verifications**, including confirming out-of-pocket costs and prior authorization requirements
- ➔ **Assistance** with your patients' health plan denial and appeal processes
- ➔ **The VYVGART Co-pay Program** and other potential financial assistance programs for eligible patients
- ➔ **Referrals** to local and national disease resources and organizations
- ➔ **Ongoing treatment support**, including symptom tracking tools and patient-to-patient resources

They are here for you and your patients:

- ➔ **Nurse Case Managers** are available to provide one-on-one support to patients enrolled in My VYVGART Path
- ➔ **Access Managers** are available to assist your office with questions you may have about starting patients on VYVGART Hytrulo or VYVGART, subcutaneous injection or infusion fulfillment, and enrolling patients in My VYVGART Path
- ➔ **Field Access Specialists** are available to collaborate with Nurse Case Managers and Access Managers to help with issues related to reimbursement and patients' access to VYVGART Hytrulo or VYVGART
- ➔ **Field Clinical Educators** are available to provide ongoing clinical education to healthcare professional offices and patient support groups about VYVGART Hytrulo or VYVGART

Nurse Case Managers provide personalized support to your patients

My VYVGART Path Nurse Case Managers are knowledgeable about VYVGART Hytrulo and VYVGART and are dedicated to listening to your patients and helping them navigate their treatment journey.

Nurse Case Managers can help your patients:

- **Understand their treatment**
Nurse Case Managers can provide information to your patients about what to expect during their VYVGART Hytrulo or VYVGART treatment journey. They can discuss options for subcutaneous injections or infusions, help patients find sites of care,* and also share resources that may help patients understand the subcutaneous injection or infusion process.
- **Feel empowered with resources and information**
Nurse Case Managers can support your patients throughout their treatment journey, equip patients with tools and resources, and teach patients about tracking their symptoms, which may help inform their discussions with you.
- **Navigate the insurance process**
Nurse Case Managers can help your patients understand their insurance coverage requirements and possible out-of-pocket costs. They can share updates on the insurance process by coordinating with Field Access Specialists, who work with your patients' insurance companies and your office.
- **Understand potential financial assistance programs**
Nurse Case Managers can help eligible patients enroll in the VYVGART Co-pay Program and inform patients about financial assistance programs and charitable foundations that may help cover out-of-pocket costs.

*A Nurse Case Manager can help your patients determine what their insurance plans offer in terms of sites of care and services.

Key support services across the treatment journey

Access Managers can:

- Enroll patients in My VYVGART Path
- Conduct a benefits verification for your patients
- Confirm a patients' insurance plan coverage
- Help patients understand their insurance coverage
- Help verify and locate a patient's site of care
- Triage prescriptions to specialty pharmacies

Field Access Specialists can:

- Collaborate across teams to help with reimbursement issues with specialty pharmacies, market access, and insurance companies
- Review patients' benefits and discuss options to assist in their access to treatment
- Help with problems related to VYVGART Hytrulo or VYVGART treatment access, escalated prior authorization denials, delayed pharmacy shipments, and more

Field Clinical Educators can:

- Provide disease state and product education to community and academic institutions, hospitals, healthcare professionals, pharmacies, and patients
- Share clinical knowledge with nurses and other healthcare professionals
- Engage cross-functionally with clinicians and patients to deliver educational support and insights while building trust

The Medisafe app is available to your VYVGART Hytrulo or VYVGART patients

 Medisafe®

The **Medisafe app** is designed to help with symptom tracking, access to education and resources, infusion centers, and treatment reminders. If your patient is enrolled in My VYVGART Path, they can receive additional features that can be unlocked through their Nurse Case Manager.

Visit the Medisafe site to learn more about the support available for your patients:
